

Unleash Your Power

Unleash the power of the Pyramid Curse.

The Curse was summoned to be the first ball out of your bag. The all new SG Equinox Symmetric core, with its Low RG/High Differential, reads the mid-lane and finds the perfect path to the pocket with deadly accuracy.

The Curse is strong, conjuring the GPS Navigational ATX Solid from the Divergent Path. Adding a surface finish of 2000 grit Abralon with Factory Finish polish provides push through the heads and a devastating backend reaction.

Summon the Curse and torment the competition.
