SG 19.5 Asymmetric

Pyramid technology is the culmination of years of core and coverstock analysis, research, and observation. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to heavy oil conditions.

The Chosen One brings back a Pyramid staple, the SG 19.5 Asymmetric core from the Chosen Path line of bowling balls. This is a core that is known for its versatility, strength and power. This is a core that has been proven to work for bowlers of all styles and varying lane conditions. To truly harness the power of the SG 19.5 Asymmetric core, we needed to introduce a new coverstock. After extensive testing, the result is the XF Gravitational Hybrid.

Pro Performance (10)

Factory Finish: 2000 Grit/Factory Polish
Flare Potential: High
Coverstock: XF Gravitational Hybrid
Lane Condition: Medium-Heavy
