New Era 139 Symmetric

Pyramid technology is the culmination of years of research, observation, core and coverstock analysis. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to medium dry conditions.

Pyramid is excited to introduce their first Entry Performance bowling ball. The Path Rising. To top it off we are offering in four color combinations so you can choose the Path that is right for you. Starting at the core of the ball, Pyramid Bowling wanted to offer a versatile ball motion in a lower price point to offer a good ball motion on a wide variety of lane conditions. The New Era 139 core offers a wide variety of drilling options, whether you drill the ball to go long and hook hard or drill the ball strong roll and a strong backend, the combination of the New Era 139 core and the Path Reactive Pearl coverstock will give you a versatile ball motion for bowlers of all skill levels.

Performance (4)
