SG Precessional Asymmetric

Pyramid technology is the culmination of years of core and coverstock analysis, research, and observation. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to heavy oil conditions.

The Pyramid Force Pearl delivers what other balls only dream to achieve. Cosmic Collision. Propelled by the SG Precessional Asymmetric core. This medium RG and differential engine creates and unbelievably strong, consistent ball motion, bringing tremendous energy transference to the pins. Paired with the Silver GOS Navigational Pearl cover, Force Pearl delivers breakneck angular power and effortless energy transfer to the pins with a sleek look. Finished at 2000 grit Abralon factory finish polish, expect to skid easily through the heads for an unsurpassed angular move on the backend.

Pro Performance (10)
