

-CHOSEN ONE-

MANY ARE CALLED, FEW ARE CHOSEN

Many are called, few are chosen.
Follow your destiny with the Pyramid
Chosen One.

The Chosen One brings back a Pyramid staple, the SG 19.5 Asymmetric core from the Chosen Path line of bowling balls. This is a core that is known for its versatility, strength and power. This core has been proven to work for bowlers of all styles and varying lane conditions.

To truly harness the power of the SG 19.5 Asymmetric core, we needed to introduce a new coverstock. After extensive testing, the result is the XF Gravitational Hybrid. Hybrids are the most versatile of all reactive coverstocks and the XF Gravitational Hybrid fits perfectly with the SG 19.5 core.

The true beauty of this coverstock is how well it takes to surface changes. Out of the box the Chosen One is finished with 2000-grit Abralon/Factory Polish for great length through the heads and controlled angularity on the backend. Change the surface to something with more "grit" and you've got a ball that handles the heaviest of oil.

Heed the call with the Chosen One.
