KM<sup>2</sup> Symmetric

Pyramid technology is the culmination of years of core and coverstock analysis, research, and observation. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to heavy oil conditions.

Pyramid Bowling is proud to introduce our third High Performance bowling ball. The Blood Moon adds an exciting new look to the Pyramid High Performance [8] with a new Crimson Blood coverstock that not only appears deadly going down the lane, but also wreaks havoc on the pin deck. The combination of the KM<sup>2</sup> Symmetric core and the 2000 grit polished R612 Reactive coverstock provides for a long and smooth arc with amazing hitting power.

## High Performance (8)

**Factory Finish: 2000 Grit Polished**  
**Flare Potential: High**  
**Coverstock: R612 Reactive**  
**Lane Condition: Medium**
