SG 19.5 Symmetric

Pyramid technology is the culmination of years of core and coverstock analysis, research, and observation. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to heavy oil conditions.

The Dark Path 19.5 is the first ever symmetrical hybrid from Pyramid Bowling. Following the success of the original Dark Path, Pyramid marries the same hybrid coverstock in its first symmetrical hybrid. The GPS Navigational Hybrid Coverstock has proven to be incredibly versatile with great traction through medium-heavy oil conditions. Finishing at 2000 Grit Abralon with no polish provides for maximum predictability.

High Performance (8)

Factory Finish: 2000 Grit Abralon
Flare Potential: High
Coverstock: GPS Navigational Hybrid
Lane Condition: Medium-Heavy
