SG Precessional Asymmetric

Pyramid technology is the culmination of years of core and coverstock analysis, research, and observation. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to heavy oil conditions.

The Pyramid Force brings a new level of power to your game. It's unstoppable. Force is propelled by the new SG Precessional Asymmetric core. This new Medium RG and Differential engine creates an unbelievably strong, consistent ball motion, bringing tremendous energy transference to the pins. Paired with the black GPS Navigational coverstock, Force delivers unrelenting power and a classic look to the lanes. Finished at 2000 grit Abralon, expect strong reaction in the fronts and mids, with unwavering continuation on the backend.

Pro Performance (10)

Factory Finish: 2000 grit Abralon
Flare Potential: High
Coverstock: GPS Navigational Solid
