New Era 139

Pyramid technology is the culmination of years of core and coverstock analysis, research, and observation. With ever changing variables within the sport of bowling, (e.g., lane conditions, ball speed, rev rate) this technology allows any bowler, from stroker to two-handed, to achieve peak performance on medium to heavy oil conditions.

The Pathogen Plague has developed a resistance and continues to thrive in super-low oil conditions with the all-new GPS Navigational Urethane coverstock. The New Era 139 core powers this new motion. The core's medium RG and differential numbers, paired with the GPS Navigational Urethane coverstock allow for efficient operation and controlled motion even through the driest of lane conditions.

Advanced Performance (6)

Factory Finish: 1000 Grit Abralon
Flare Potential: Medium
Coverstock: GPS Navigational Urethane
Lane Condition: Dry
